Mott Community College
&
Saginaw Valley State University

Computer Science

Additional recommended courses for Mott Community College students planning to transfer to Saginaw Valley State University.

> COMM 131* (petition SVSU CSIS Dept. for regularly recognized substitution in lieu of SVSU COMM 105A).
> MATH 170*
> COMS 171, 172, 270, 280
> COMI 160 (or test at SVSU)
> COMW 178 & 189 (Students must complete both courses in order to meet program requirement.)

*Course will be applied to General Education Requirement.

Students are encouraged to reserve SVSU's Category 5 (History/Philosophy) General Education requirement for completion at SVSU. The Computer Science program includes a specific SVSU course which also fulfills the Category 5 General Education requirement.

SVSU's degree requires completion of two (3-credit each) Communication Intensive (CI) courses which Mott students typically complete at SVSU. Students seeking the most efficient route toward degree completion are encouraged to consult early with an SVSU pre-admission advisor since reserving certain coursework for completion at SVSU can mean satisfying multiple requirements in fewer courses.

Students may transfer a maximum of 62 community college credits to SVSU.
